Draft Cadmium Aquatic Life Ambient Water Quality Criteria 2 26 16 (REDLINE).docx

Hi Glynis, Sometimes I have trouble getting in, even in the office. I generally get out and try again, and it often works for me.

Easiest solution, however, is to just work around Sharepoint so you can have the time needed for your review. I have attached a copy for your review. I have attached both the redline version, so you can see the changes that have been made based on public comments, and a clean version with those changes accepted.

Please make any changes that you have in redline/track change mode. Please let me know if you have any additional questions.

Thanks,

Mike

Good Morning:

I have attempted to open both the redline and accepted comment documents in SharePoint; both attempts failed. Can you please send me the most recent copy for WG closure review? I would like to be able to provide OP's comments by your March 9, 2016, deadline.

Subject: RE: Cadmium Workgroup Review - Kickoff Meeting

As a followup to the kickoff meeting, below is a link for accessing the revised cadmium criteria document and summarized comments. The “Revised Document” folder contains a redline markup, so you can see the revisions made based on public comments. This folder also includes the “draft for review”, which has the redlines accepted. **Please make comments and suggested changes in redline/track change mode in the “draft for review” version of the document.**

Additionally, in a separate “Public Comments and Responses” folder, I have saved a draft version of the summarized public comments and our responses to those comments.

The document folders/documents can be found at the following:

https://usepa.sharepoint.com/sites/OW_Work/cleanwaterstandards/projects/cadmium/_layouts/15/start.aspx#/de

As discussed during the call today, **we will need all final review comments/edits in the draft document no later than March 9** based on a shorter deadline, which now requires us to have the criteria document completed by the middle of March.

Please let me know if you have any questions or problems accessing the documents.

Thank you,

Mike
